Relative to the Pancoast,
Agassiz, Rush & Mott
medals.

Newport, R.I.

10 March. 1890

Dear Sir,

You would greatly oblige me
by giving me information regarding
the following points - ascertainable
& preserve from the Mott record -
the circumstances under which,
or upon whose application, the
Agassiz, Henshaw & Pancoast
medals were struck - as I desire
to refer to them in a paper in
the Amer. Journal of Numismatics
for April.

There is a larger Pancoast,
a single faced plaque, 72 x 48 (sixteenth
of inch), said to be from Barber's model
at U.S. Mint - & to give merely "Joseph
Pancoast U.S.M." Can you tell me
as to this?

Was the Dr. Val. Mott "Seate
Salvator", 1823, struck at the Mint?
If so, under what circumstances?

Can you inform me as to
cause of striking the two Dr. Rush
medals in 1808? Dr. Wm. Pepper of
your city endeavored in vain to have

certains this for me from Col. New.
 Dear Mr. Haller -

Kindly give me a brief description
 of the Dr. J. J. J. model (Assay of
 1874), which I have not yet seen.

I should very much like to
 see it and I shall always be glad in any way
 to reciprocate.

Sincerely yrs.

H. R. Storer
